#### **Early Literacy Support**

We know that many of you consistently seek out new ways to help support your children emotionally, socially, and academically. As educators, we enjoy working with you to strive to achieve these goals for students as well. One simple and free way that parents and/or guardians can help to support literacy is by exposing their kids to a variety of books at their individual reading ability level. If you are not sure how to help your child choose appropriate books, please don't hesitate to ask your child's teacher to talk with you about this. Books can be checked out for free at the public library (6233 Montgomery Road), or accessed online at websites such as http://www.storylineonline.net/ or http://www.storynory.com/.; According to an article by Ferst Foundation for Childhood Literacy entitled Fifty Top Literacy Statistics, "Creating a steady stream of new, age-appropriate books has been shown to nearly triple interest in reading within months". When kids triple their interest in reading, you can only imagine how their progress with literacy skills can be impacted! This can also result in a natural increase in self-esteem, which supports students socially and emotionally. Please continue to talk with your child's teacher about simple strategies that will support student development. As always, thank you for your continued support!

LSDMC Purpo	ose:		

The Local School Decision Making Committee (LSDMC) is the primary governing body our school and is comprised of four major constituency groups (parents, teachers, non-teaching staff including the principal, and community members). It sets school goals, develops a plan for meeting those goals, and monitors progress toward goal attainment by conducting mid-year and end-of-year assessments. The LSDMC makes school budget decisions, submits changes in the local school's program, and participates in the selection of the principal.
